

We are seeking to recruit 3 Consultants to the Neurology/Stroke service to join the existing Consultant team at Plymouth Hospitals NHS Trust.

Plymouth is the regional neuroscience and trauma centre for the South West of England. It offers the whole range of neurology subspecialties, as well as specialist neurosurgery, neuroradiology, neurovascular, neuropsychology, neuropsychiatry, neurophysiology and neuro-ICU units. It hosts the various regional neuroscience clinical networks including neuro-oncology, MND, neuromuscular etc, as well as the regional CPD training.

We are ambitious. Plymouth is well known for its forward looking acute neurology service that cares for patients with all neurological conditions right from presentation at the hospital. We offer thrombectomy for acute stroke, and are planning to develop this into a more comprehensive regional service provision. We are looking for colleagues who are eager to join our enthusiastic clinical team. There is plenty of clinical work to be done, and for a candidate who wants to develop a clinical research career, there may be up to 4 research PAs per week available from the University of Plymouth.

## Consultant Neurologist with an Interest in Stroke Medicine

The role will include general neurology work, specialist provision of stroke services including support/development of our thrombolysis and regional thrombectomy service, inpatient and ambulatory/TIA clinic care.

Apply through [www.jobs.nhs.uk](http://www.jobs.nhs.uk) ref: 216-GP-9329-NSM

## Consultant Neurologist with an Interest in Multiple Sclerosis

The role will include general neurology work, specialist provision of regular MS Clinics, and support/development of the regional MS service

Apply through [www.jobs.nhs.uk](http://www.jobs.nhs.uk) ref: 216-GP-9328-NMS

## Consultant Stroke Physician

Stroke specialism can form part of the training in several higher specialist training pathways. We would welcome applications from a suitably trained doctor from any host specialty, and will be flexible around the particular needs of the applicant.

The main requirement is expertise and enthusiasm to provide excellent care for our stroke patients and to help develop the stroke service

The role will include specialist provision of stroke services including support/development of our thrombolysis and regional thrombectomy service, inpatient and ambulatory/TIA clinic care. As applicants may be drawn from various subspecialties, the post would be adjusted to meet the speciality CPD and other clinical needs of a suitable applicant. Please discuss further when enquiring about the post.

Apply through [www.jobs.nhs.uk](http://www.jobs.nhs.uk) ref: 216-GP-9330-NSP

Plymouth is a vibrant Ocean City and regularly hosts major sailing events such as The Americas Cup and the TRANSAT race, Devon is one of the most beautiful counties in England. With its rugged coastline and stunning interior it's a wonderful place to live and work. It is a great place to bring up a family. For example, primary schools often have after-school surfing clubs, trips to the beach, and as children get a bit older they can be sailing in Plymouth Sound each week, either through school or one of the many sailing clubs. There are three excellent state grammar schools in the city, and good private school provision.

Dartmoor National Park, one of the few places in the country where one can wild camp, is only 15 minutes from the hospital. Many consultants commute to work by bike across Dartmoor, and it is possible to get to the hospital almost completely 'off road' along good tracks/cycle paths and then do a bit of more adventurous mountain biking on the way back.

This is an opportunity to combine a career in an ambitious Regional Neuroscience Centre and an excellent lifestyle, in a beautiful part of the country.

The Trust welcomes informal enquiries to Service Line Lead Neurology Dr S Weatherby 01752 432052 or 01752 432381; [stuartweatherby@nhs.net](mailto:stuartweatherby@nhs.net)

To view the job description and make an application please visit [www.jobs.nhs.uk](http://www.jobs.nhs.uk) and search via reference.

Closing date: 9th August 2015.

Interviews to be held in September 2015.

Plymouth Hospitals NHS Trust is an equal opportunities employer and is a non-smoking organisation.

Working in Partnership with the Peninsula Medical School.
